

From Jess Wilson

Greetings Sacramento AAll Computer SIG members; our next meeting will be held on Thursday, April 16th at 7:00 pm at Raley's, 4650 Natomas Blvd, Park Place Shopping Center, Sacramento, CA 95835. Our meetings are held in the Community Meeting room located near the left hand rear side of the store. The store telephone number is (916) 419-6633. Directions to the store can be found on Bernard's web site: <http://www.wonderfulwebwork.com/investment-info.html>.

April Meeting

Ron Black will present several of the criteria he uses to measure performance.

1. Dollars Per Day

We watch our individual stocks to see how they are appreciating. We almost always use the % gain or loss to measure our progress. I have been using another measure for this gain or loss. It is called Dollars per Day. Dollars per Day is better than % gain/loss because it takes time into consideration. I have found it to be very useful in keeping me in positions and in helping me decide to sell positions.

I will show how \$/d is calculated and how I use it on my portfolio.

Please bring some examples from your holdings: the stock name, the % Appreciation, and the date purchased. For example, IBM, + 47%, Jan. 1, 2014. And we can calculate the \$/d for your stocks.

2. Price / Index Ratio

The P/I ratio is the ratio of the stock price to the price of an index. Using this ratio, we can see the amount of movement in the stock price is due to the market, and the amount that is due to the strength in the stock itself. This is my primary technical analysis tool for selecting stocks to purchase. It is easy to calculate and, with practice, is easy to interpret.

I will show how I interpret the P/I ratio for some stocks on my watch list.

Please bring some tickers of stocks that are on your radar and I will show the P/I ratio for them.

If you are receiving this monthly meeting notice but are not interested in attending please send me an email with the word Remove in the subject box. I will remove your name from the mailing list.

If you have any questions you can contact Bernard Scoville for further information at 916-568-1491 or his email address, which is on the left on this website:
