

October 19, 2017 7:00 pm. Computerized Investing Meeting Notes:

By Bernard E. Scoville

We started with some general discussion of many investment topics.

We also did recommendations:

Bernard again recommended Applied Optoelectronics, AAOI.

The highlight tonight was a real estate presentation by Danny Tajeda of Lyon Real Estate. Danny is very enthusiastic about virtual reality and 3 D walk throughs of properties. Ron Black asked many good questions,

Danny also brought helpful handouts from Lyon Real Estate. He used them to give an historical and practical look at real estate, especially in Sacramento, which is now in a sellers market.
