

September 21, 2017 7:00 pm. Computerized Investing Meeting Notes:

By Bernard E. Scoville

We started with some general discussion of many investment topics.

We also did recommendations:

Mary recommended getting our credit frozen. After the Equifax breach, this is a VERY good idea. She gave us information with this link to do this:

<http://www.idtheftcenter.org/Solutions/sn-41>

The link is to the IDENTITY THEFT RESOURCE CENTER. Their phone number is 1-888-400-5530. I called them and they helped me with this information:

Call Equifax at 1-800-685-1111 Extension 3. They will freeze your credit for free.

Call Experian at 1-888-397-3742. Call Trans Union at 1-888-909-8872. Experian and Trans Union will charge for freezing your credit. \$5.00 if you are over 65. In all cases, you will get a code, so you can unfreeze later.

Bernard recommended Applied Optoelectronics, AAOI.

Then Roy gave a comprehensive presentation of Better Investing's online tools. Roy's presentation is linked to in the middle column of this website.

Here is a more direct approach to the link:
